

**TINTON FALLS, NJ – October 11, 2018** – Hermetic Solutions Group (HSG), a leading manufacturer of hermetic packaging, components and services announces the promotion of Mike O’Keefe to President of its Sinclair Manufacturing division.

Per CEO Bill Hubbard, “Since Sinclair joined Hermetic Solutions Group earlier this year, we’ve had the opportunity to get to know its outstanding team and business and I am pleased to announce the promotion of Mike O’Keefe to the role of President. For the last 21 years as Vice President of Marketing and Sales, Mike has been championing the efforts of putting the customer at the center of everything we do, helping to yield one of the most respected companies in the hermetic sealing industry, known for its high quality and excellence. With Mike at the helm, I have no doubt that Sinclair will continue to grow and support the evolving needs of our customers.”

Mike joined Sinclair Manufacturing in 1997 as Vice President of Marketing and Sales where he focused on broadening our product line to position the company for growth and expansion. Prior to joining Sinclair Manufacturing, Mike worked at PCC / Balo Precision, a manufacturer of complex hermetic packages for the Defense & Aerospace markets, for 19 years in various rolls in Materials Management, Operations & Sales. Mike attended Rutgers University in Newark, NJ, as well as many professional development courses.

Mike’s “customer centric” business philosophy has helped Sinclair Manufacturing to be recognized as one of the most highly regarded hermetic package companies in the market.

After a short transition, Dave LeMieux will retire by the end of the year. Under Dave’s leadership for the last 24 years (32 years total with the company), Sinclair evolved into one of the most respected companies in the hermetic sealing industry; he will be missed by both our customers and fellow colleagues. We wish Dave the best of luck in his retirement.
